Innovation  
united by  
a common  
purpose

**Our mission is to discover and develop innovative medicines that solve serious health issues today and address the medical challenges of tomorrow.**

**We make innovation work for people.**

Our scientists develop and advance new drugs to have strong clinical performance and real economic value, especially where needs are great.

**All we do is whatever it takes.**

Tackling the world's toughest health challenges means following the best scientific ideas. We partner with peers, universities, clinical experts, governments, non-government organizations, and advocacy groups worldwide – to achieve better outcomes.

**Passionate about our work.**

**Responsible in our actions.**

We recognize and embrace our opportunity to contribute resources to improve global health. Our nonprofit AbbVie Foundation helps build strong communities, sustainable healthcare systems, and effective educational programs. AbbVie's volunteer programs demonstrate our employees' deep commitment to giving back to our communities while inspiring an engaged workforce.

**At AbbVie, we don't just make medicine.  
We make a difference.**
